

My family and friends have been listeners of K-LOVE for quite sometime. We listen in the car, at work and at home. My husband and I travel frequently in our work and one of the nicest attributes of K-LOVE is that we can listen wherever we are. Most of the people I know in my community listen to K-LOVE on a regular basis. It doesn't seem to us that there are any advantages in replacing K-LOVE with LPFM stations. K-LOVE provides one of only truly family safe music stations on the radio today. Those of us who are tired of the current level of filth and profanity on the airwaves spend our hard earned money to keep K-LOVE on the air so that we can have a safe listening alternative. K-LOVE provides a very valuable public service to our community and we stand behind it and support it not just with comments and listenership but also through financial support. Please take this into consideration when you are considering making any modifications. Thank you, Tammy Himes
